

how to measure for your size

- * have a ruler and pencil handy
- * place the heel of your largest foot at the bottom of the raindrop
- * hold your ruler where your toes end and mark a line

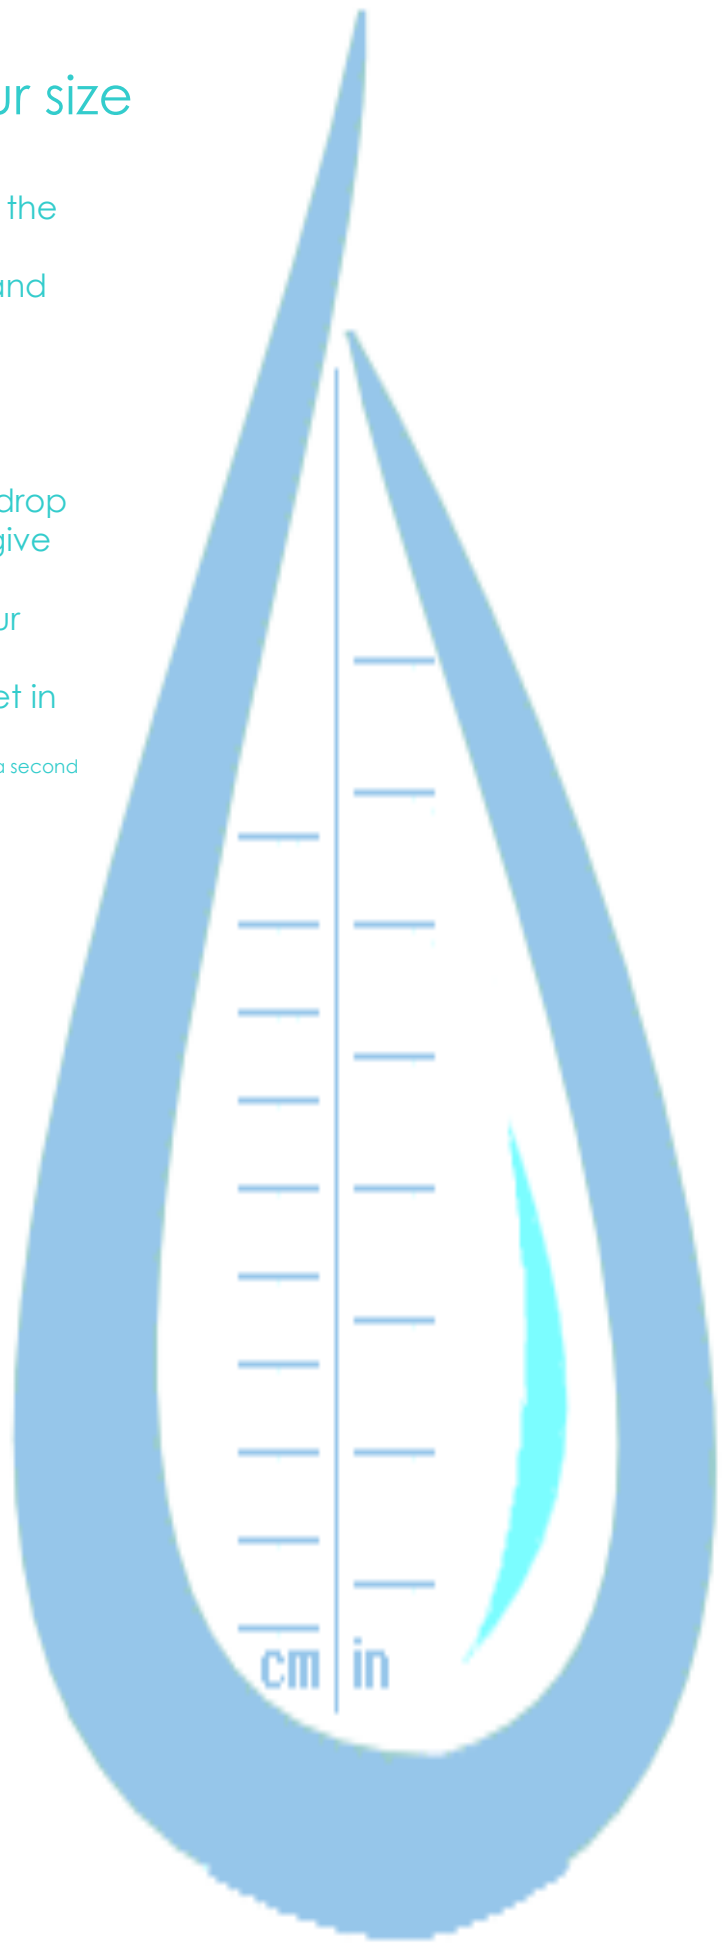

- * measure from the bottom of the raindrop to the line of your foot length this will give you the length of your foot
- * refer to the boot size chart to find your boot size
- * order your favorite boots and Get Wet in Style!

Please note that if your foot length exceeds 26 cm you will require a second sheet of paper to complete your measure.
